

Tree Plantation Drive Organised on World Environment Day at Indian Adult Education Association

On the occasion of World Environment Day on 5 June 2026, a tree plantation drive was organised at the Indian Adult Education Association. Prof. Rajesh, Director I/c, along with staff and students, planted saplings as part of the initiative to promote environmental awareness and encourage a greener future.

The participants highlighted the importance of trees in maintaining a clean, healthy, and sustainable environment. The initiative aimed to strengthen environmental consciousness and inspire collective responsibility towards ecological balance and conservation.

The programme also emphasized the role of educational institutions in leading by example in environmental protection. Participants took a pledge to nurture the planted saplings and ensure their long-term growth.

Such initiatives are expected to contribute towards increasing green cover in the campus and surrounding areas, while also sensitizing young learners about sustainable living practices. The drive concluded with a message encouraging everyone to adopt eco-friendly habits in their daily lives and actively participate in environmental preservation efforts.
